

TODAY'S FRESH, SUSTAINABLE CATCH – Wild Alaskan Salmon

Solgar® Wild Alaskan Full Spectrum™ Omega Softgels

SOLGAR® Wild Alaskan Full Spectrum™ Omega Softgels offer 100% pure, wild Alaskan salmon oil (including sockeye salmon oil) and vitamin D3. Wild Alaskan sockeye salmon's natural oil is among the purest of all ocean fish and one of the richest sources of the important omega-3 fatty acids EPA and DHA. The levels of these and other fatty acids found in this synergistic formula—and the proportions of each in relation to one another—reflect those found in wild salmon.

Solgar® Wild Alaskan Full Spectrum™ Omega Softgels are derived from sustainably-caught fish from the pristine, cold waters of Alaska. They undergo a proprietary purification process to ensure the removal of heavy metals while maintaining optimal integrity and potency. Visit your local health food store and pick up a bottle of Solgar® Wild Alaskan Full Spectrum™ Omega Softgels today.
